have progressed to the point in Post Mortem where you tell about the picture of the tie .. maybe two pix/back and front .. anyway is there any possibility you would sell me a copy of either one in that that is the most devastating of all evidence concerning the throat wound of entry ...
thank you .. trust '77 is treating you better than '76 .. cheerio

DATE 2/7/77-Sure, tell me the pages on which they appear and the first time I can I'll get the local photo shop to make prints. I have no idea what the cost will be...Last week George Lardner of the Wash Post askedx me if I'd heard of you. I said I knew you, why? Turns out that you either accused him of killing Ferrie or inferred it to the Rules committee. If so this was pretty wild and maybe libelleous. I don't know if he is going to do anything. You also have two other problems with this. Garrison had theplace under surveillance and he says that Ferrie committed suicide with an overdose of proloid.
Hastily,
